

# PASSWORD CREATION TIPS FOR YOU

We understand it can be difficult to create an effective password that meets all of the LISD password policy requirements. That is why we would like to share some tips with you.

Let's start by thinking about our password as more of a "pass-phrase". We can accomplish this by implementing the following tips:

1. Think of four random words.

tablet  
brain  
elevate  
school

✓ at least 12 characters  
✓ too random to be used before  
✓ too random to be personal

2. Pick one word and capitalize each of its letters.

tablet  
↓  
TABLET

✓ at least one uppercase letter

3. Pick another word to leave as is.

brain  
↓  
brain

✓ at least one lowercase letter

4. Incorporate at least one number into another word.

elevate  
↓  
313vat3

✓ at least one number

5. Incorporate at least one special character into one of the words.

school  
↓  
sc#ool

✓ at least one special character

6. Enjoy your new pass-phrase!

TABLETbrain313vat3sc#ool

Of course, this is just an example. There are countless password possibilities, but we hope this helps you create your next LISD password with confidence ... and maybe a little fun.
