

# Preparing Your Pools for the Summer Season

Pool season is right around the corner. It's time to pull out those point-of-sale workstations, dust them off, and fire them up. If you're lucky, everything will work right off the bat, but who has that kind of luck? To avoid being all washed up, we have created a checklist with possible solutions to ensure everything goes swimmingly and save you from diving off the deep end.

## Pool Prep Checklist

Check the box next to each item if the answer is "Yes." If an answer is "No," consult the linked Knowledge Base entry for solution ideas, or log in to the [Support portal](#) and start a case.

- Does the computer turn on and boot up?
  - Not currently Windows 11 Certified
  - Are all peripherals certified and purchased through VS?
