Gatekeeper	
Pros	Cons
<ul style="list-style-type: none"> - Admin can inspect and sanitize tips and dialog before any school-level tip managers (Contacts) see them. - Admin can make sure only actionable tips are delivered to school-level tip managers. 	<ul style="list-style-type: none"> - Admin must remember to deliver tips or else school-level tip managers will not be able to access them. - Admin must approve each and every dialog message that school-level tip managers have access to.

Delegator	
Pros	Cons
<ul style="list-style-type: none"> - Admin can inspect and sanitize tips and dialog before any school-level tip managers (Contacts) see them. - Admin can make sure only actionable tips are delivered to school-level tip managers. - Admin do not need to remember to approve each dialogue message for school-level tip managers to view. 	<ul style="list-style-type: none"> - Admin must remember to deliver tips or else your school-level tip managers will not be able to access them. - Admin cannot sanitize two-way dialog before school-level tip managers view it.

Auto-Delivery	
Pros	Cons
<ul style="list-style-type: none"> - Notifications for new or updated tips will automatically be sent to school-level tip managers, based on the school selected by the tipster. - The tip and any updates or dialog are immediately accessible to school-level tip managers. 	<ul style="list-style-type: none"> - Admin cannot inspect or sanitize tips prior to school-level tip managers - Potentially more exposure to non-actionable tips for school-level tip managers.
