

# -- SafeShowings

An app to protect you, and your homeowner during the showing process

## About

SafeShowings mobile app aims to ensure the protection of real estate professionals during solo showings. SafeShowings requires that anyone who wants a private showing must upload a photo of their drivers license to the SafeShowings mobile app. If, at the end of the showing, the Real Estate Professional does not press the end showing button, all emergency contacts will be notified with the exact location, time, and authorities will have an image of the perpetrator's Drivers License

Simple Steps to Get Started:

1. Register your information
2. Enter Emergency Contacts
3. Create showing

## How to Access

Access via the ONE Marketplace or by visiting <https://safeshowings.com/>

## Support Info
