

INTERNAL – PRIVATE & CONFIDENTIAL

LUXEbuffettes Setup

Sales Manager's Guide

Version: 21.06.24

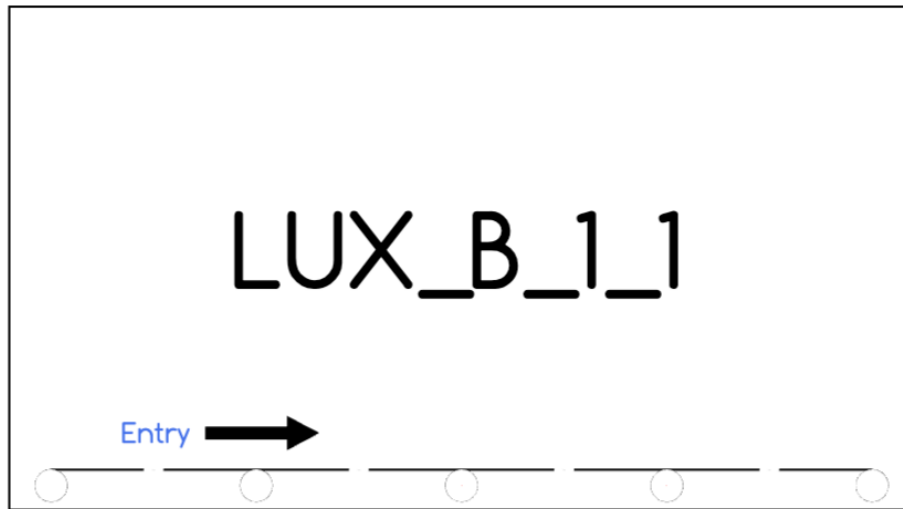

Overview

1. This guide should be used by Sales Managers when drawing LUXEbuffettes in floor planner.
2. The location of the setup will be defined in the floorplan by the Sales Manager.
3. Sales Managers should use the pre-defined “combo” packs to “drag and drop” layouts into the floorplan only.
4. There is only 1 component for each LUXEbuffette setup.
5. The Suntec Operations Team will also be receiving their own guide on the internal setup – hence there is no need to add additional items such as power points or queue poles to your standard setups.
6. Clients can view our F&B layouts in EVA [here](#).

FLOORPLAN – LUXEbuffettes

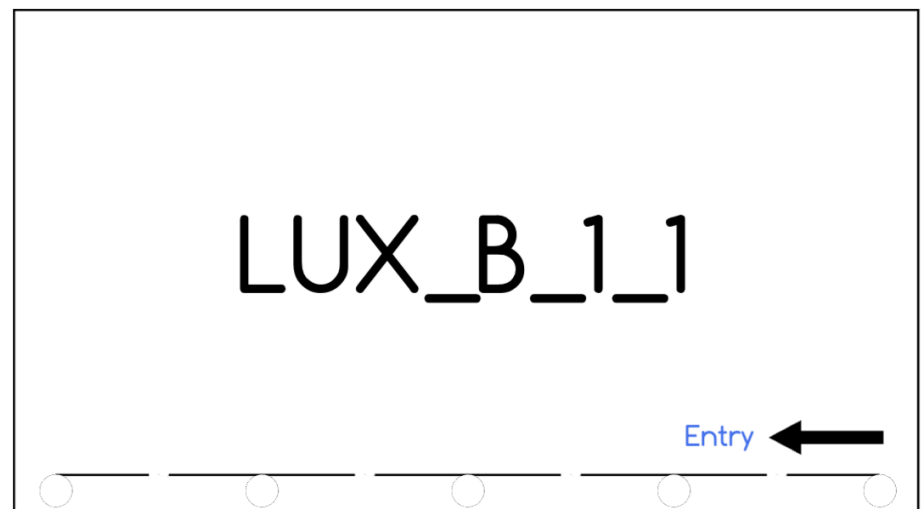

Component 1 of 1 – LUXEbuffettes

The below layout shows the combo pack for LUXEbuffettes:

Component 1 of 1 – LUXEbuffettes [Reverse Flow]

The below layout shows the combo pack for LUXEbuffettes:
