

NEW FEATURE

NEW

Stocktakes

You can now complete Stocktakes in Infusion. Go to **Products > Stocktakes** and select **+Add** to create a stocktake. [View our knowledge base articles about product stocktakes.](#)

USER EXPERIENCE

ENHANCED

6033 Readability of document links improved

Links to records such as invoices, receipts, and stocktakes are now in a larger font with higher contrast to make them easier to read.

6031 Buttons improved in notification on home page

Previously, there were two buttons on the Barcode and Pin notification on the home page. We have removed the button 'Profile' as the button to enable barcode and pin login takes you through to the profile.

5956 Notification when device not enabled now has clearer wording

When a barcode or pin login is not enabled, the notification now reads 'Barcode and Pin Login is not yet enabled on this browser/device. Please login with your Username and Password and go to Home to enable.'
