ENT-5967	eCommerce - Streamline process of syncing invoices	1.6.0.0
ENT-5952	Customer Maintenance - Check for duplication of sales people in Salesman, Salesperson2 and Salesperson3 on Customer master properties tab. Added validation that will ensure that a salesperson can only be linked to a customer once.	1.6.0.0

ENT-5938	EDIC - Improve ASN status messaging when rejected (include more detailed msg why ASN being rejected)	1.6.0.0
ENT-5885	E-mail - Alphabetical sorting in to drop down in Email window	1.6.0.0
ENT-5833	Standardize Excel imports to use DocumentFormat.OpenXml.dll - XLSX for – ‘Physical Inventory’ and ‘Min\Max Import/Export’	1.6.0.0
ENT-5755	EDI – Added check to not allow an EDI Order to be sent if it does not have any lines	1.6.0.0
ENT-5859	Barcode Label - Added 2 new labels which can display the price and Quantity Break Pricing (‘Avery 05160 Quantity Discount’ and ‘Label 1 ¼ x 2 Quantity Discount’). Also added an option to select the price level to be printed on the label. 	1.6.0.0

Bugs

Issue ID	Description	Fix Version
ENT-5946	Barcoded Labels - getting an error when trying to print labels where no items were selected. Print button now validates that items have been selected before performing print.	1.6.0.0
ENT-5954	Removing salesperson commission % causes unhandled Exception Error. If a commission split value is deleted and left blank, Decor Fusion will auto fill with 0.00.	1.6.0.0
ENT-5978	EDI - GS and ST next numbers leading zeros getting truncated. Format ISA, GS and ST next numbers to 9 characters wide (zero filled)	1.6.0.0
ENT-5976	CPS - SyncInvoice attempting to create upload duplicate invoices. Removed duplicate entries.	1.6.0.0
ENT-5943	POS User - Can delete a salesperson who is attached to Customer Master, Customer Job, on Historical Ticket or an Open Order. Added check to prevent deletion of POS Users who are linked as a salesperson to an Open Order, Historical Order, Customer or Customer Job.	1.6.0.0
ENT-5947	CBC Notification Web Service - Email not sent when Company Store contains either a ' or a " character. Removed problem characters.	1.6.0.0
ENT-5948	EDIC - ASN's being rejected incorrectly (ShipToID not set up). Corrected the issue.	1.6.0.0
ENT-5957	eCommerce – Amounts Owing endpoint not always supplying associated document id for viewing on the eComm website. Corrected.	1.6.0.0

ENT-5942	EDIC - Correct 997 document format for 856 documents received	1.6.0.0
ENT-5941	eCom - Investigated eCommerce Notification Messages to make sure is working as designed	1.6.0.0
ENT-5906	Since this new version of excel was released when a physical template is created the quantity column is locked by default. Does not occur on older versions of excel. This is a XMLDocument issue with the new version of Excel. Work-a-round for now is unlock column in sheet.	1.6.0.0
ENT-5875	Customer History Search Button Lighting Up Before Item Search is committed and causes previous search to be repeated. Search button will not light up before the validation occurs.	1.6.0.0
ENT-5878	With Force Quantity Enabled you can save orders with a 0 quantity then recall and complete them. Added verification to Save button to ensure you cannot save an order with Data Validation issues.	1.6.0.0
ENT-5874	Creating a Job from POS screen generates Unhandled Exception Error when previous job has positive or negative sign under job Number field. Fixed the issue and screen now handles any characters entered into customer job number field.	1.6.0.0
ENT-5872	eCommerce Configuration - Prompt to create and Item for Delivery Surcharge Item. Getting an error message Problem saving eCommerce Configuration details. Object reference not set to an instance of an object. Added check and display appropriate message.	1.6.0.0
ENT-5840	Unable to reprint completed Purchase Orders. Specific to French Language DB. Issue corrected.	1.6.0.0
ENT-5790	User was able to Inactivation/Salesperson removal while use assigned as Salesperson. Added to code to check when attempting to set a salesperson inactive or change a salesperson to a regular clerk, perform a check to see if the POS User is linked to any Customers or Customer Jobs. If they are, user will be prompt and asked if they truly want to remove the salesperson from the customers and customer jobs they are linked to. If they confirm to remove the salesperson link, any changes made are inserted into the System Log.	1.6.0.0
ENT-5331	Slow Moving Stock Report Fails to Load When Sorted by Vendor. Added Vendor data table to the report dataset.	1.6.0.0
ENT-5970	When 2 stores are setup with its own Cost the second store is not visible in the drop down list. Fixed problem with the ability to select multiple stores that maintain the Cost independently	1.6.0.0
ENT-4985	Promotional Pricing Throws Null Exception if deleting last visible promotional record. Validate that there are valid records in the treeview.	1.6.0.0
