Release Overview

This document provides brief information regarding 1.5.0.9 New Features, Improvements, bug fixes.

New Feature

Issue ID	Description	Fix Version
ECOM-85	Optionally show available/on hand quantities on eCommerce Site - In Decor Fusion menu click **Pricing** – **eCommerce Setup** - Click **Configure eCommerce Site button** - Click on new tab **On Hand** - Under **Show On Hand Available** there are two options (OnHand and Available) - On Hand can be controlled for two types of customers **Retail** and **Commercial** 	1.5.0.9

Improvements

Issue ID	Description	Fix Version
ENT-5335	Voided Orders report - Added Method Of Tender to the Group Footer. If the order was voided and not deleted, it will state 'Voided Before Completion' as the Method Of Tender	1.5.0.9
ENT-5475	eCommerce Products form - link was added with retailer ID to eCommerce website. Clicking on link simply copies web address to clipboard. User must then paste address into their web browser.	1.5.0.9

Bugs

Issue ID	Description	Fix Version
ENT-5803	eCommerce Store Hours/Active - Improved code logic to handle store hour changes properly.	1.5.0.9
