You will pay less if you use a <u>provider</u> in the plan's <u>network</u> . You will pay the most if you use an <u>out-of-network provider</u> and you might receive a bill from a <u>provider</u> for the difference between the <u>provider</u> 's charge and what your <u>plan</u> pays (<u>balance billing</u>). |
| Are there prescription services? | Yes, prescription discounts | Prescription discounts available through OptumRx. The pharmacy help desk can be reached at 877-633-4461. Start using all features of your prescription card by going to the OptumRx portal. |

Out of Network Claims Processing:

Except as otherwise required under state or Federal regulations, the maximum amount the plan is obligated to pay for services provided by a non-primary PPO provider will be the lesser of the provider's billed charges for covered services and an amount determined by one or more of the following, which we may sometimes modify to maintain the reasonableness of the Allowed Amount:

- Using current publicly available data reflecting fees typically reimbursed to providers for the same or similar professional services, adjusted for geographical differences where applicable.
- o Using amounts calculated based on what Medicare would reimburse for the services billed.

About these Coverage Examples:

This is not a cost estimator. Treatments shown are just examples of how this <u>plan</u> might cover medical care. Your actual costs will be different depending on the actual care you receive, the prices your <u>providers</u> charge, and many other factors. Focus on the <u>cost sharing</u> amounts (<u>deductibles</u>, <u>copayments</u>, and <u>coinsurance</u>) and <u>excluded services</u> under the <u>plan</u>. Use this information to compare the portion of costs you might pay under different health plans. Please note these coverage examples are based on self-only coverage.
