Out of Network Claims Processing:

Except as otherwise required under state or Federal regulations, the maximum amount the plan is obligated to pay for services provided by a non-primary PPO provider will be the lesser of the provider's billed charges for covered services and an amount determined by one or more of the following, which we may sometimes modify to maintain the reasonableness of the Allowed Amount:

- Using current publicly available data reflecting fees typically reimbursed to providers for the same or similar professional services, adjusted for geographical differences where applicable.
- Using amounts calculated based on what Medicare would reimburse for the services billed.
- o Using the rates negotiated with the provider for all services provided under a non-primary network contract or claim-specific agreement.

About these Coverage Examples:

This is not a cost estimator. Treatments shown are just examples of how this <u>Plan</u> might cover medical care. Your actual costs will be different depending on the actual care you receive, the prices your <u>Providers</u> charge, and many other factors. Focus on the <u>Cost Sharing</u> amounts (<u>Deductibles</u>, <u>Copayments</u> and <u>Coinsurance</u>) and <u>Excluded Services</u> under the <u>Plan</u>. Use this information to compare the portion ofcosts you might pay under different health plans. Please note these coverage examples are based on self-only coverage.
