Out of Network Claims Processing:

Except as otherwise required under state or Federal regulations, the maximum amount the plan is obligated to pay for services provided by a non-primary PPO provider will be the lesser of the provider's billed charges for covered services and an amount determined by one or more of the following, which we may sometimes modify to maintain the reasonableness of the Allowed Amount:

- Using current publicly available data reflecting fees typically reimbursed to providers for the same or similar professional services, adjusted for geographical differences where applicable.
- Using amounts calculated based on what Medicare would reimburse for the services billed.
- Using the rates negotiated with the provider for all services provided under a non-primary network contract or claim-specific agreement.
