

Shakopee Schools Distance Learning

Introduction to Seesaw for Families

<p>Seesaw is a portfolio that your kids will use to show what they are learning in school and share it with you their family</p>	
<p>Students will post notes, videos, pictures, drawings, voice recordings to their learning journals for parents to see on their device</p>	
<p>Students love Seesaw because they get to show off what they know with a variety of tools to their teacher and their families</p>	
<p>Parents love Seesaw because they feel like they can see what is going inside the classroom. Teachers and parents are always in control of how information is shared.</p>	
<p>Once you are connected to Seesaw either by a link or join code given to you by your teacher you will be able to see all of your child's posted work.</p>	
<p>You can decide if you want Seesaw notifications sent either by email, or text message.</p>	
<p>Lastly, you can decide if you want to leave a voice comment or text comment for your child. Please Enjoy Seesaw. Thank You!</p>
