

GIBBSCAM SOFTWARE MAINTENANCE

Why You Need It

You might ask, “Why should I purchase maintenance?” In a nutshell, this is the best tool to protect your investment. Keeping your software current helps you stay on the cutting edge.

Our engineers are constantly working to improve our software and add new functionality and efficiency. Stay competitive in your market by having access to the latest and most powerful GibbsCAM technology.

In an environment where it is increasingly difficult to get paid for programming time, the incremental enhancements in maintenance releases give you an edge in competing for jobs.

All Major Upgrades

Technological Advantage

CAD Interoperability

Online Knowledge Base

Staying Competitive

- **Updates to embedded technology** that we incorporate in our software. These updates ensure that you gain the same technological advantage as your competitors.
- **CAD-interoperability updates and enhancements** to increase the amount of part-feature data captured from your CAD system, which will ensure you retain hassle-free compatibility with new releases of the CAD systems that generate your part models and to help you speed up programming.

GIBBSCAM MAINTENANCE GIVES YOU:

- **All major GibbsCAM upgrades**

including all GibbsCAM software and electronic documentation, are automatically shipped free of charge to Maintenance customers upon release.

- **New features and operational enhancements**

plus shortcuts, plug-ins, and bug fixes come with each new major or interim release. While all these save you time programming, some features enable you to produce more efficient programs that extend tool life and remove more material faster, yielding huge cycle-time reduction and cost savings at the machine.

- **Online training and online help**

become readily available and will prove to be highly beneficial when you add new machines, new software modules, or new programmers, while immediate access to user forums will help you learn and share tips, tricks and help.

- **Immediate access to pre-release software**

When we make pre-release versions available, you can download these so you don't need to wait for the release to take advantage of new features and enhancements. Subscribe to GibbsCAM News to receive email notices of important product alerts.

- **Online Knowledge Base**

Online access to the knowledge base will prove to be highly beneficial to answer many immediate questions. Use this resource to learn new software modules, train new engineers or programmers, and find tips and tricks.

- **Hardware Key Replacement**

Defective dongles will be replaced at no charge upon return to their Reseller. Broken dongles will be replaced for \$150 upon return to their Reseller. Lost or stolen dongles will be replaced for \$150. A replacement document will need to be signed by the customer.

Contact your GibbsCAM Reseller or call GibbsCAM directly to maximize your software investment today.
