

GIBBSCAM SOFTWARE SUBSCRIPTION

Fit for Business As the shape of business changes, most new customers are taking advantage of a new “pay-as-you-go” option for GibbsCAM software. A GibbsCAM subscription allows you to start using the full CAD/CAM software to build your cash flow, while paying monthly at a fraction of the full upfront cost of the software. Here are some benefits:

STAY COMPETITIVE

- **Lower startup costs**
Reduces your initial startup investment
- **Flexible**
Pay per need allows more financial flexibility
- **Operating expense**
Subscription treats cost as an operating expense

MANAGE EASILY

- **All-in-one**
Software with the latest features, services, maintenance
- **Ongoing support**
No additional fees for software maintenance or tech support calls
- **Up-to-date**
Regular updates keep your software platform secure, stable, and running at top speed

ANSWER BUSINESS NEEDS

- **Scalable**
Easily adjust licenses and modules at each renewal period
- **Lean resource**
Optimize operations as needed for variable production
- **Low risk**
Free from being locked into a long-term contract

How GibbsCAM Subscription Works:

■ Subscription Period

Software subscriptions must be a minimum of 12 months period.

■ New Licenses Only

It is available for any new license purchases and doesn't apply to existing perpetual seats.

■ Full GibbsCAM Software

Your subscription gives you immediate access to the annual release of GibbsCAM software as well as ANY updates.

■ Posts and Modules

Posts are paid up front for your machines. Modules may be adjusted at the time of renewal.

■ Free Technical Support

You receive immediate access to your local technical support team.

■ No Maintenance Fee

There is no additional maintenance fees for software subscriptions.

Choosing the Fit for Your Business

■ Benefits of a subscription plan

Subscriptions are the perfect solution for your business if you need to manage your cash flow, or typically have periodic spikes in production requiring adding more users as your business needs change.

- Lowest cost of entry
- One-year license
- Treat software as an operating cost (OPEX)
- Easily manage cash flow
- Maintenance and support included
- Always have access to the latest version
- Ability to manage spikes in production

■ Benefits of a purchase license

As always, our purchase licenses remain an option if you are able to invest and want to own your software.

- Lowest total cost of ownership
- Treat software as a capital investment (CAPEX)
- Access to support, maintenance and updates with an optional SMA contract
