

Enterprise-Level Security with Maxwell Single-Sign On Authentication

Maxwell Single-Sign On allows your lending team to sign in safely and securely using your existing authentication partner.

Maxwell Single-Sign on (SSO) simplifies access management, enhances security, and increases productivity while reducing the risk of data breaches and compliance violations.

Authentication Partners

We support over 95% of authentication providers in the market including:

...and more.

Get your organization set up with SSO

Contact your customer success manager or email meetmax@himaxwell.com to discuss next steps to get your team set up with enterprise level security SSO.

Increased Security

Reduces the risk of unauthorized access to sensitive data and applications, which can lead to data breaches and security incidents.

Simplified Access Management

Simplifies the management of user access, making it easier for IT admins to add or revoke user access and reset passwords.

Access Control

Ensures that only authorized users have access to sensitive consumer data and provides an audit trail of which users accessed the data.

Improved Usability

Your lending team doesn't have to create and remember another login password and can log in easily with one click.
