## Quick start guide for Android version

New to myViewBoard Whiteboard? Use this guide to learn the basics of the Android version.

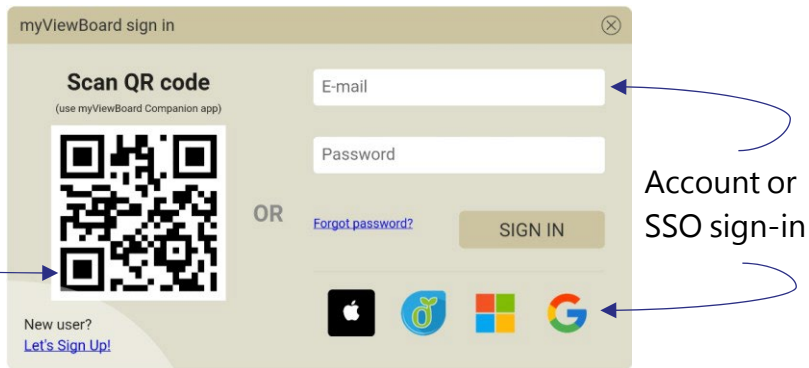

**Using myViewBoard Whiteboard:** Any time during a lesson, **hover over** a tool for quick feature tips.

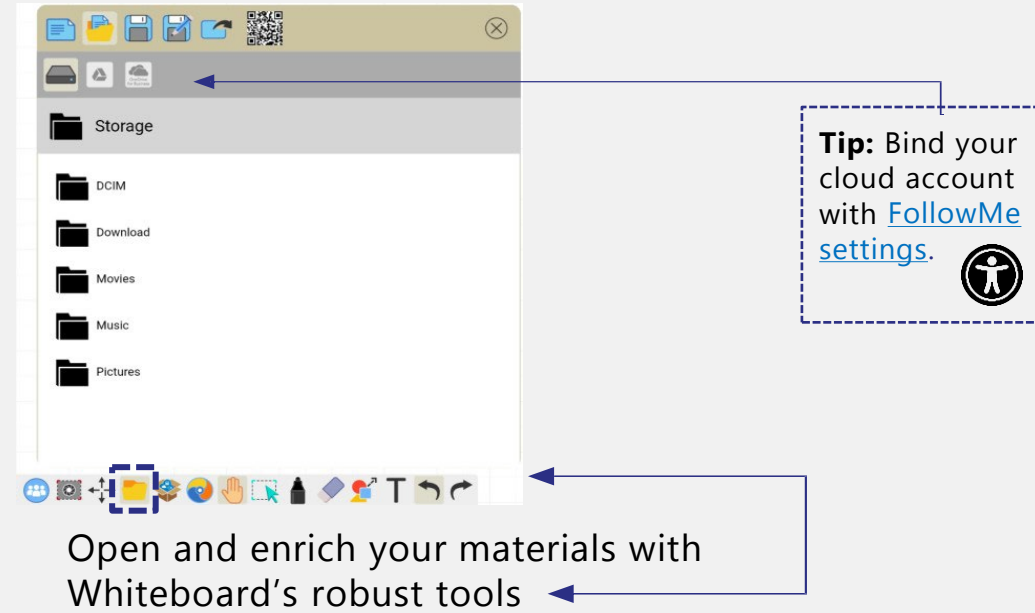

# myViewBoard Whiteboard

## Signing in

Sign in with your myViewBoard account to access full Whiteboard features and your personal settings.

## Prepare your lesson

## Annotate the canvas

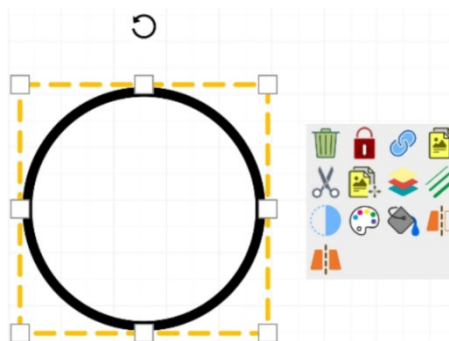

Whiteboard provides a selection of styles and customizations to create and deliver class-leading content.

### Pens:

Use pen tools to draw freehand lines, shapes, and more.

### Shapes:

Insert 2D & 3D shapes, lines, or tables and edit them with different styles.

### Text Editor:

Type, edit, and format text on the canvas.

# myViewBoard Whiteboard

## Discover Magic Box tools

Add notes

Search videos

Search images

Drag various tools onto the canvas and boost interactivity and engagement.

## Open and import files

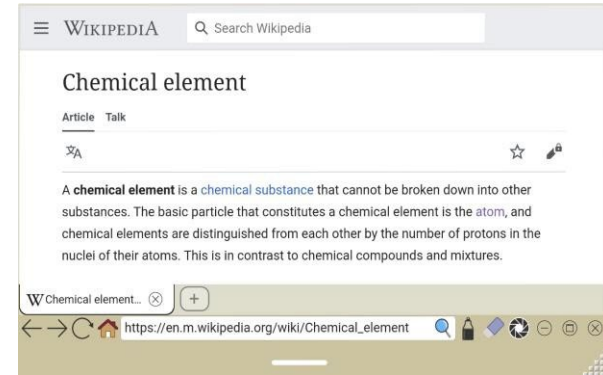

OLF for cross-platform lessons: Save [OLF files](#) and open them across Whiteboard versions.

### Other supported file formats:

Whiteboard files	OLF, IWB
Documents	PDF, TXT, URL
Presentations	Google Slides
Images	PNG, JPG, JPEG, BMP, GIF, ICO, SVG
Audio	MP3, AAC, WMA, WAV, M4A
Video	MP4, 3GP, MOV, MKV, WEBTM, TS, M4V

## Browse education sites

**Embedded browser:** Access a convenient internet browser and do all your research within the canvas.

## Digital session

Enhance any lesson with these interactive tools:

Share/receive a screen and audio.

Screenshot and record canvas.

Search/add internet resources.

# myViewBoard Whiteboard

## Get students involved

Engage students by giving them interactivity options. Here's how:

Click to display multiple ways to join.

Use Companion app and scan this QR code.

<https://myviewboard.com/MVBTrainer>

or  
Input session URL to access the Whiteboard Portal.

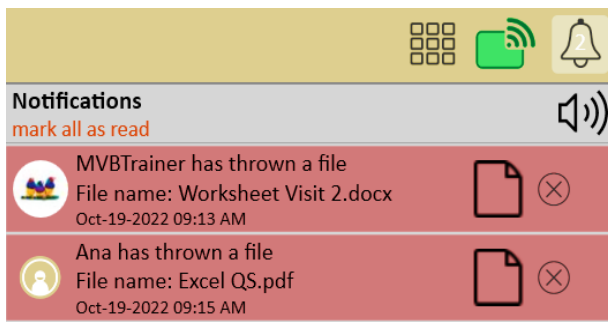

## Export canvas

Save and share the Whiteboard canvas to students via File Manager.

<https://mvp.fyi/OSgg>

**Once students are in the session, they can give immediate feedback right on the canvas.**

Wirelessly share files to your Whiteboard session.

With Pop Quiz, create instant questions and receive answers by pressing their name or

## Feature plan breakdown

Not sure which features you should have access to? Here's your cheat sheet:

### Standard

- Create content with essential annotation tools.
- Export lessons to PDF format.
- Magic Box for safe image/video search, math tools, and more.
- Screen recording and video streaming features.
- Cloud integration: Google Drive, OneDrive, Dropbox, Nextcloud.
- ViewSonic Originals for free lessons, resources, backgrounds, and games.

### Pro/Premium<sup>1</sup>

All **Standard features, plus:**

- Draw like a pro with AI Pen.
- Share sessions by QR code.
- Complete access to advanced ViewSonic Originals content.
- Student collaboration tools:
  - Wireless Presentation.
  - Throw images and files to the board.
  - Access to questions and activities with Pop Quiz.

### Entity<sup>2</sup>

All **Premium features, plus:**

- Early access to updates and upgrades.
- Dedicated support.
- Professional Development to empower teachers to make the most of technology in the classroom.
- Enhanced Originals content with all content available by request by your organization.

- Find detailed information regarding feature accessibility per tier at [myviewboard.com/pricing/](https://myviewboard.com/pricing/).
- Access all myViewBoard apps, tools, and account settings at [myviewboard.com](https://myviewboard.com).
- View step-by-step tutorials on our YouTube Channel: [ViewSonic Education](https://www.youtube.com/channel/UC6wZ8v8v8v8v8v8v8v8v8v8).
- Receive training and become a myViewBoard expert: [Professional Development Program](#).

---

<sup>1</sup> The **PRO** and **PREMIUM** plans are PAID myViewBoard subscriptions designed to provide users with advanced myViewBoard Whiteboard features. However, with a **PREMIUM** plan, educators also gain access to [myViewBoard Classroom](#).

<sup>2</sup> The **ENTITY** plan is a subscription attainable by request only for organizations or educational institutions set up with ViewSonic hardware. It contains tools to help build, maintain, and manage large device and software rollouts.
